## DELMADE 2 & 4 TONNER TIP TRAILER

### Simple, Reliable Tip Trailers for Small Scale Jobs

When you need a no fuss trailer that gets the job done, DELMADE's 2 and 4 Tonner Tip Trailers deliver strength and reliability in a compact, single axle design. Made to last, these trailers are ideal for transporting loads around the property with ease. Whether you're working in tight spaces or just need something smaller that still works hard, these compact units are built with the same care and quality as larger Delmade gear. Simple to use, low maintenance, and ready for work, these are trailers you'll rely on season after season.

Perfect for carting firewood, fencing gear, feed bags, lick blocks, or shifting small square bales. Ideal in orchards, vineyards, or behind a small tractor.

## DELMADE 6 TONNER TIP TRAILER

### A Tough, No Nonsense Trailer

If you're after a serious workhorse that won't flinch under pressure, the DELMADE 6 Tonner Tip Trailer is built for you. With a rugged tandem axle design this trailer handles everything from gravel and timber to silage, scrap, and machinery with ease. Its rugged build and smart design make it a great choice when you need one trailer that can do it all, day in, day out. Built in Australia for Australian conditions, it's the trailer that shows up ready, no matter the task.

**HENRY GUNNINGHAM  
CONTRACTOR - TAS**

*"It's built like a tank. I can't hurt it... Phenomenal.  
You're never going to have a problem with it.  
It's so well done, so well finished, you couldn't find  
better, more exceptional quality.  
Seriously impressive."*

## DELMAD 8 & 10 TONNER TIP TRAILER

**When the job gets serious, so do these trailers.**

The 8 and 10 Tonner Tip Trailers from Delmade are built for those who move big loads in tough conditions and need gear they can trust. Whether it's gravel, silage, excavators, or materials for the next big job, these heavy duty workhorses are engineered to deliver, day in and day out.

These units are standard with gravel spreading chains and you can option up with Aluminium Ramps for transporting the excavator. They're a practical, long term solution for operations that can't afford breakdowns or bottlenecks. Just hook up and get to work, no drama, no compromise.

SPECIFICATIONS	8T	10T
Deck Size (mm)	2550(W) X 4300(L)	2550(W) X 4590(L)

## DELMADE 12 TONNER TIP TRAILER

**When maximum matters, this is the trailer you want behind you.**

The 12 Ton Tip Trailer is built for serious operators who move serious loads. It's the largest in the Delmade range, tough, dependable, and ready for anything the farm throws at it. You name it and this trailer will cart it - silage, hay, gravel, equipment.

The large flotation tyres easily handle the heavy loads. Like the 6, 8 & 10 Tonner models the 12 Tonner features the Delmade oscillating rocker walking beam suspension system, (heads above the old style spring system found on competitor machines) the rocker beam system reduces shocks on the tractor and operator and all the movement is absorbed into the heavy duty trailer chassis. When second best just won't cut it, this is the trailer you'll want in your shed.

SPECIFICATIONS	12T
Deck Size (mm)	2550(W) X 4800(L)
Side Height (mm)	500
Transport Width (mm)	2649
Total Weight (kg)	3580.84
