

# HOWARD ROTARY HOES

**HOWARD AUSTRALIA  
SINCE 1923 WHEN THE  
FIRST ROTARY HOE  
WAS PRODUCED.**

# AH/CH 4000 SERIES

**AH model**

Machine illustrated includes optional crumble roller.

**CH model**

## AH AND CH SERIES

AH Series available in 2.5m, 3m, 3.5m & 4m for tractors up to 200HP

CH Series available in 4.2m, 4.7m and 6.2m

The new range of rotary hoes has been designed specifically for Australian conditions. The strong toolbar style design with rubber hull construction substantially reduces soil build up around the rotor that robs horse power and fuel efficiency. More effective in wetter conditions than competitors' machines, AH/CH Rotary hoes allow growers to work the ground earlier, plant earlier and get to market earlier.

## OPTIONS

ParaploUGH  
sub soiler tines

Rear wheels

Zone till rotor

## ALL STANDARD FEATURES

- Chain side drives
- Fabricated toolbar style frame that provides strength and versatility.
- Rubber hull and trailing board prevents soil build up and hp consumption.
- 248RPM rotor on AH Series and 275RPM on the CH Series.
- Optional Extras:
  - Crumble roller
  - Rear wheels
  - Toolbars and attachments such as paraploUGH, sub soiling tines and row furrowers.
