RUT-FILLER 2.0 SERIES NARROW TWIN CHUTE

DESIGNED FOR RUTS IN POLYTUNNELS

**Do you need to fill ruts in polytunnels?
Is it taking you hours by hand?**

The twin chute Rut Filler 2.0 is specifically designed for filling ruts in narrow polytunnels. It is built light enough to be pulled by compact tractors and features two chutes which fit standard row widths in most horticulture applications. Twin remotes allow remote shut on / off and mean the chutes can be operated independently.

RUT-FILLER 2.0 SERIES NARROW TWIN CHUTE

BAN THE RUTS = SAVE TIME & MONEY

Ruts in orchards, vineyards, and strawberry tunnels can create numerous problems if left unattended. The Delmade Rut-Filler offers an ideal solution. Designed specifically for these environments, it can fill both ruts in one pass, saving you time and effort. The wheels at the back of the machine help compact gravel once it's been dispensed.

FEATURES

- Designed for strawberry tunnels, vineyards, and orchards
- Can fill both ruts in one pass
- Wheels at the back of the machine help to compact gravel once it's been dispensed
- Saves time and manual labour
