## Front End Loader Silage Forks

This Australian made and designed silage fork is suited to front end loaders fitted with the Eurohitch (Global) system.

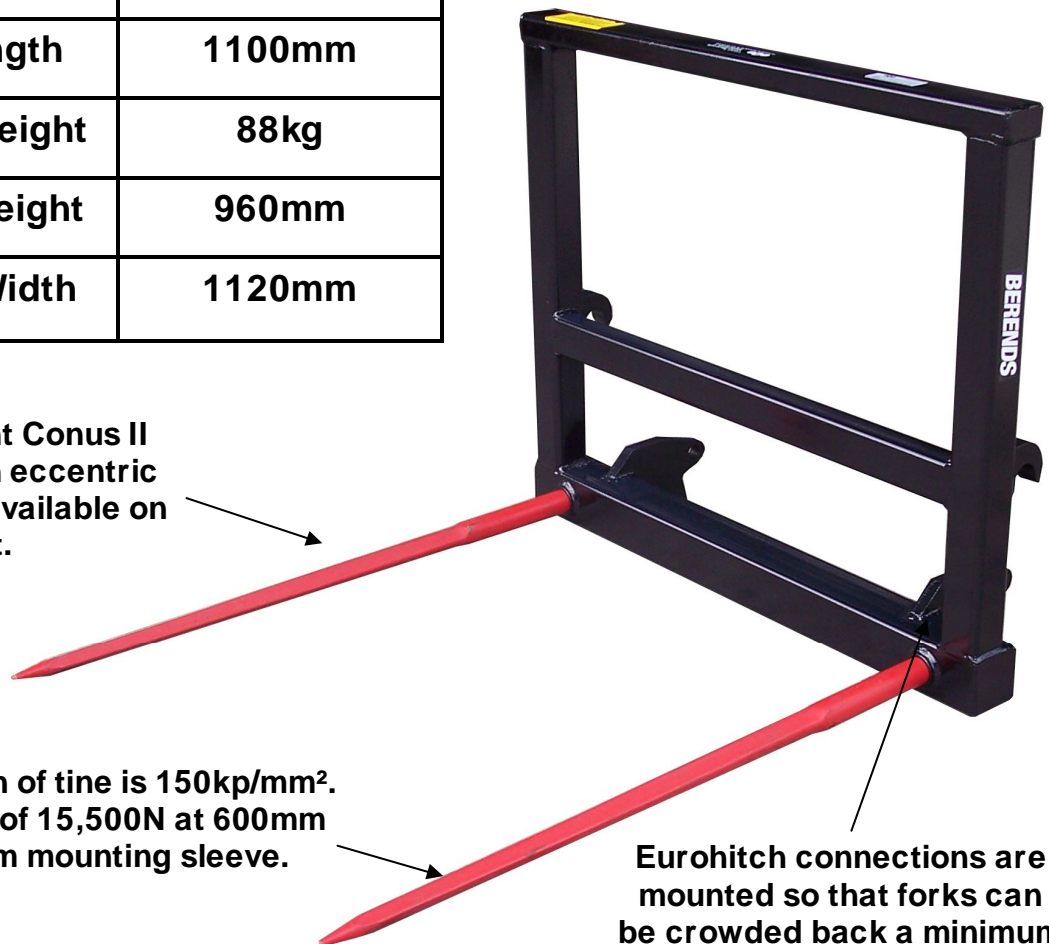

Load Rating tested to 1100kg (AS2359) at 600mm load centres

Model	0299
Fork Length	1100mm
Overall Weight	88kg
Overall Height	960mm
Overall Width	1120mm

1100mm Straight Conus II bolt on tines with eccentric nut. Other sizes available on request.

Tensile strength of tine is 150kp/mm<sup>2</sup>.  
Maximum load of 15,500N at 600mm distance from mounting sleeve.

Eurohitch connections are mounted so that forks can be crowded back a minimum of 30°.
